1. Excel is an example of what type of software? 1 / 1 point

- ○ Word Processor
- ◉ Spreadsheet Software
- ○ Presentation Package

Nice work

Yes. Other examples of spreadsheet software are Apple Numbers, Google Sheets and LibreOffice Calc.

2. Which of the following is NOT part of the Ribbon? 1 / 1 point

- ○ Home
- ○ Insert
- ○ Data
- ◉ Tools

Nice work

You spotted it - **Tools** is not a tab of the Ribbon. Well done.

3. My Ribbon has disappeared - how can I get it back?? 1 / 1 point

(One or more answers are possible. Partial credit will be awarded)

- ☐ Switch to another worksheet.
- ☑ Double-click on any of the ribbon tabs.

Nice work

Your answer is spot on. If you are working on a Mac, a single click will have the same effect.

- ☐ Close Excel and open it again.
- ☑ Right-click on one of the tabs and untick **Collapse the Ribbon**.

Nice work

Nice work - you have been paying attention to Nicky's explanations in the Practice Video.

4. Clicking on the **File** tab takes you to the **Backstage View**. From here you can 1 / 1 point

(One or more answers are possible. Partial credit will be awarded)

- ☑ Set up Excel options.

Nice work

Yes, that's right. The Backstage is your one-stop shop for settings, your account, file management and printing. To leave the Backstage you can either click the back arrow in the top left corner or simply hit the Escape key.

- ☑ Close a file.

Nice work

Yes, you can close your files from here. Another quick and easy way to do this is to use the keyboard shortcut for closing a file: CTRL/CMD+W while you are in the main window.

- ☑ Open a file.

Nice work

Yes, you can open a new file from your computer from here - or even open recently used files from a list. Another quick and easy way to do this is to use the keyboard shortcut for opening a file: CTRL/CMD+O while you are in the main window.

- ☑ Create a blank workbook.

Nice work

Yes, you can create a blank workbook from here or choose from a broad range of templates. A quick and easy way to create a blank workbook is to use the keyboard shortcut: CTRL/CMD+N while you are in the main window.

5. The tools on the far right of the status bar (at the bottom of the screen) allow you to 1 / 1 point

(One or more answers are possible. Partial credit will be awarded).

- ☑ Toggle between different **View Options**.

Nice work

Yes, well done. We will learn more about View Options in the next Practice Video.

- ☐ Access the **Backstage View**.
- ☑ Set a specific zoom percentage.

Nice work

Yes - have you had a play with this tool? You either choose a particular percentage or zoom in on your selection. Super useful!

- ☑ Use the zoom slider.

Nice work

Yes, absolutely. The zoom slider is great because you can easily adjust the view of your spreadsheet to your needs.
