1. What is one of the main purposes of the fill handle that we have demonstrated? 1 point

- ◯ To automatically create a series based on existing data.
- ◯ To automatically enter data into an empty spreadsheet.
- ◯ To easily fill the background color of a large range of cells.

2. What does your mouse cursor need to look like in order to activate the fill handle? 1 point

- ◯ A thick, white plus sign
- ◯ A bold, black plus sign
- ◯ Four black, crossed arrows

3. Take a look at the screenshot below. Sean needed to separate the first names from Column C. This would normally take quite a long time but he managed to fill Column D within seconds. How did he do that? 2 points

	A	B	C	D	E
1	**Order No**	**Order Date**	**Customer Name**	**First Name**	**Last Name**
2	5071-1	2013-05-05	Christopher Schild	Christopher	
3	5145-1	2013-06-29	Cyma Kinney	Cyma	
4	5160-1	2013-07-05	Berenike Kampe	Berenike	
5	5168-1	2013-07-15	Christy Brittain	Christy	
6	5195-1	2013-07-31	Alex Grayson	Alex	
7	5268-1	2013-10-11	Stephanie Ulpright	Stephanie	

If you are not sure, download the workbook below and have a go yourself. You can figure it out!

First names
XLSX File

NOTE: *This question refers to a feature in Excel that is not available in the Mac version of Excel. However, you can still answer the question by watching the Practice Video on the Fill Handle in this week.*

- ◯ Sean selected cell **D2**, then he dragged the fill handle to **D7**. All the first names appeared.
- ◯ Sean typed "Christopher" into cell **D2**, then he dragged the fill handle to **D7**. He changed the tool option to Flash Fill.
- ◯ He selected cell **C2**, then he dragged the fill handle to **D7**. All the first names appeared automatically.

4. How do you activate the fill functionality? Remember, if you are not sure, head over to Excel and explore! 2 points

(One or more answers are possible. Partial credit will be awarded.)

- ☐ You hover over the small square in the bottom right-hand corner of your active cell until you see the thick black cross, then click and drag.
- ☐ You right-click on your active cell and choose **Fill handle** from the context menu.
- ☐ You select a range of cells and click on this icon in the **Home** tab.

5. Take a look at the screenshot below. What do you expect to see in the cells **A3**, **B3**, **C3** and **D3** when you drag the fill handle all the way down to **D6**? 2 points

	A	B	C	D
1	**Order No**	**Order Date**	**Customer Name**	**Order Quantity**
2	5071-1	2013-05-05	Christopher Schild	6
