4. Rows are referenced using letters of the alphabet. 1 / 1 point

- ( ) True
- (•) False

Nice work

Yes, your answer is correct. The statement is false. Rows are referenced using numbers.

5. The first cell (top-left) in a standard Excel spreadsheet is known as **1A**. 1 / 1 point

- ( ) True
- (•) False

Nice work

Yes, this is the correct answer. The statement is false - the first cell in a standard Excel spreadsheet is not referred to as 1A.

6. Cell **B2** is to the right of cell **A2**. 1 / 1 point

- (•) True
- ( ) False

Nice work

Yes, you are correct. The statement is true. Cell **B2** is to the right of cell **A2**.

7. Cells **A1**, **A2**, **A3**, ..., **A20** are all in the same row. 1 / 1 point

- ( ) True
- (•) False

Nice work

Yes, you are right. The statement is false. Cells **A1**, **A2**, **A3**, ..., **A20** are not in the same row.

8. The Quick Access toolbar can be customised to show the tools you use most often. 1 / 1 point

- (•) True
- ( ) False

Nice work

Yes, you are right. The Quick Access toolbar can be customised to show the tools you use most often.

9. Clicking on cell **C3** and clicking **Freeze Panes** will freeze the top 3 rows and the first 3 columns. 1 / 1 point

- ( ) True
- (•) False

Nice work

10. You can navigate to the right-hand side of your spreadsheet using the arrow keys of the keyboard. 1 / 1 point

- (•) True
- ( ) False

Nice work

11. You can directly type into a cell by clicking on it and proceeding to type. 1 / 1 point

- (•) True
- ( ) False

Nice work

12. If text has already been entered in a column and you start typing in the same column, Excel will suggest existing values that begin with what you have typed. 1 / 1 point

- (•) True
- ( ) False

Nice work

13. You can copy and paste in Excel in a similar way to how you can copy and paste in Microsoft Word. 1 / 1 point

- (•) True
- ( ) False

Nice work

Excel and Word have different copy and paste options, but they work in a similar way.

14. If you want to remove some information from your spreadsheet, you can highlight this information and press **Delete**. 1 / 1 point

- (•) True
- ( ) False

Nice work

15. If you want to reverse most previously conducted tasks, you can click the **Undo** button at the top left of the Excel window. 1 / 1 point

- (•) True
- ( ) False

Nice work

The **Undo** tool is very useful when you make a mistake and can be used in most situations in Excel.
